(CET)	12:30-13:30	14:30-16:30
Tuesday 18th October	Welcome Live demo and Q&A	Training Group 1
Wednesday 19th October	Live analysis	Training Group 2
Thursday 20th October	Live analysis	Training Group 3

Free registration until Sunday 9th October **Register here now**

Welcome, Live Demo and Q&A

- Watch this Imaris applications webinar beforehand at your convenience (30 mins)
- In this session, I will demo live in Imaris some basics about visualization & quantification and address your live questions

Live analysis

- In these sessions, I will analyse live in Imaris some participants' images that I will have prepared in advanced

Training

- In these sessions, you will use Imaris on our Virtual Machines: you won't need to have access neither to any Imaris license from your institute nor to install a demo version - you'll only need a computer with a good internet connection, a good screen, a microphone and a mouse. MacOS/Win will suit.
- We'll do preset exercises with users' images already provided: you won't be able to import and analyze your own images
- Limited seats are available per lab. so please make sure to keep your commitment

Try Imaris yourself

- You can request an Imaris demo license to test it anytime on your own computer and images here
